Summary

Full Stack Developer with 1.9+ years of experience building scalable web applications using React.js, Next.js, Node.js, Express.js, MongoDB, TypeScript, Python, and Generative AI libraries. Passionate about writing clean, maintainable code, solving complex problems, and delivering high-quality, scalable user experiences.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, Vercel, Netlify

Others: REST APIs, JWT Authentication, API Integration, Responsive Design, DSA, OOP, MVC

Work Experience

Full Stack Developer | AppVibe

July 2025 – Present

- Developed scalable web applications using React.js, Next.js, Node.js, Express.js, MongoDB, TypeScript, and Python.
- Built secure REST APIs and integrated third-party services.
- Developed AI-powered features using Python and Generative AI libraries.
- Collaborated with cross-functional teams to deliver production-ready applications.

Associate Frontend Developer | A3 IT Solutions

November 2024 – June 2025

- Developed responsive web applications using React.js, Next.js, JavaScript, and Tailwind CSS.
- Built reusable UI components and integrated REST APIs.
- Optimized application performance and cross-browser compatibility.
- Collaborated with designers and backend developers to deliver scalable features.

Projects

Cypher AI – Secure AI Inference Platform

Live Demo: <https://www.cypherai.ai/>

- Tech Stack: Next.js, React.js, TypeScript, Python, Generative AI
- Developed an enterprise AI platform with responsive UI and secure REST APIs.
- Integrated Python and Generative AI workflows to enhance application capabilities.

EcoCredit – Finance Mobile Application

Google Play: <https://play.google.com/store/apps/details?id=com.ecocredit>

- Tech Stack: React Native, Node.js, REST APIs
- Developed a finance mobile application with responsive UI and API integration.
- Improved application performance and user experience.

SK Board – Web & Mobile Platform

Live Demo: <https://skboard.satellitekeyit.com/>

- Tech Stack: React.js, React Native, Node.js, MongoDB
- Developed scalable web and mobile applications using reusable components.
- Integrated backend APIs and optimized application performance.

Education

- MCA – Poddar Group of Institutions, RTU (2024–2026)**
- BCA – University of Technology, Jaipur (2021–2024) | CGPA: 8.84/10**

Certifications

MERN Stack Development – Regex Software Services (April 2023 – November 2023)
