

Aviral Kaushik

AI-Powered Full Stack Developer

aviralkaushik2002@gmail.com | +91 7737390643 | [LinkedIn](#) | [GitHub](#)

Summary

AI-Powered Full Stack Developer with 2 years of experience building production-ready web applications, responsive interfaces, and secure REST APIs using React.js, Next.js, Node.js, Express.js, FastAPI, Python, MongoDB, and TypeScript. Skilled in integrating Generative AI capabilities into scalable applications while writing clean, maintainable code and collaborating with cross-functional teams.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Tailwind CSS

Backend: Node.js, Express.js, FastAPI

Databases: MongoDB, MySQL

API Development: REST APIs, JWT Authentication, API Integration, Postman

Developer Tools: Git, GitHub, VS Code, Vercel, Netlify

AI & Generative AI: Generative AI Integration, Python-based AI Services

Other Skills: Responsive Design, Data Structures & Algorithms, OOP, MVC Architecture

Work Experience

Full Stack Developer | AppVibe

September 2025 - Present

- Developed scalable web applications using React.js, Next.js, Node.js, Express.js, MongoDB, TypeScript, and Python.
- Built secure REST APIs and integrated third-party services to extend application functionality.
- Implemented AI-powered features using Python and Generative AI libraries.
- Collaborated with cross-functional teams to deliver production-ready applications on schedule.

Associate Frontend Developer | A3 IT Solutions

September 2024 - August 2025

- Developed responsive web applications using React.js, Next.js, JavaScript, and Tailwind CSS.
- Built reusable UI components and integrated REST APIs to support scalable feature delivery.
- Optimized application performance and ensured cross-browser compatibility.
- Collaborated with designers and backend developers to deliver scalable, user-facing features.

Projects

Cypher AI - AI-Powered Market Research Platform

Live Demo: <https://www.cyphera.ai/>

Tech Stack: Next.js, React.js, TypeScript, Python, Node.js, FastAPI, Generative AI

- Developed scalable frontend and backend features for an AI-powered market research and market intelligence platform.
- Integrated Generative AI capabilities and Python-based services to support intelligent research workflows and market insights.
- Built and maintained secure REST APIs with Node.js and FastAPI while improving responsive data visualization and user experience.

PlasticCredit - Mobile App

Google Play: <https://play.google.com/store/apps/details?id=com.ecocredit>

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs

- Developed responsive web application features for a sustainability-focused platform supporting plastic waste awareness and credit initiatives.
- Built and integrated REST APIs for frontend-backend communication, database operations, and maintainable application workflows.
- Improved user-facing experience through clean interface implementation and reliable application architecture.

SK Board - Web & Mobile Platform

Live Demo: <https://skboard.satellitekeyit.com/>

Tech Stack: React.js, React Native, Node.js, MongoDB

- Designed a scalable web and mobile platform using reusable components, ensuring consistent functionality and maintainable architecture across multiple devices.
- Connected backend services with MongoDB through REST APIs to enable efficient data management, optimized performance, and seamless frontend-backend communication.

Education

- MCA - Poddar Group of Institutions, RTU (2024-2026)
- BCA - University of Technology, Jaipur (2021-2024) | CGPA: 8.84/10

Certifications

- MERN Stack Development - Regex Software Services (April 2023 - November 2023)
